## The best for successful business

Euro-2100 cash register is designed for modern retailers who built their success and growth on the latest technologies and satisfied customers. Special features make Euro-2100 useful assistant especially in high standard outlets, groceries, self-service stores, bars, coffees or supermarkets.

## High technology for you and your customers

Euro-2100 is the first middle-class cash register with USB and optional Ethernet interface. It comes with absolutely new, resistant "real" touch keyboard with 36 fully programmable keys which enables to operate more easily and quickly. Thanks to the state-of-the-art Black Mask technology, new adjustable displays provide comprehensive information for both customer and cashier.

## Take advantage of Euro-2100 matchless features

Excellent features include practical built-in calculator or customers' desired UV LED bank notes checker. All these features help you to increase customers' satisfaction and comfort, operating simplicity and fastness as well as higher Point-of-sale performance and ergonomoy.
